

## **Nu-Foam Products, Inc. Expands Operations for Bedding Foam, Furniture Foam, and Rebond Carpet Cushion Production**

Nu-Foam Products, Inc., 1102 Wisdom Street, Chattanooga, Tennessee, has announced the expansion of its polyurethane foam manufacturing and distribution facility.

The company has purchased an existing 66,000 square foot building, adjacent to its Wisdom Street plant, for production of fabricated products. As well, Nu-Foam is adding a \$300,000 expansion to its current facility for increased volume of long buns and reusable scrap foam. The expansion will facilitate the company's existing bedding, furniture and carpet pad customer base, as well as augment reach to areas of Carolina and surrounding regions.

Nu-Foam is adding manufacturing positions and expects to offer more employment opportunities upon completion of the expansion in late summer 2004.

"This is an excellent juncture," says Lewie Moeller, president and CEO. "We continually seek opportunities to develop and improve our ability to meet and exceed the expectations of our customers and the communities we serve. This expansion offers new opportunities of economic growth for our company, as well as greater Chattanooga.

Nu-Foam Products, Inc. is a sister company to Flexible Foam Products, Inc. and a wholly owned subsidiary of Ohio Decorative Products, Inc., an Ohio based, privately held corporation. The company maintains locations throughout North America in the research, development, manufacturing and distribution of polyurethane foam products for bedding, furniture, flooring, automotive, packaging and specialty industries.
